

# INTRODUCTION

Founded in 1965, and operated continuously since, The Almega Company has grown through three generations while maintaining the family business values that it was founded upon.

The primary officers of the company are **Nick Aspiotes**, President, and a 1974 graduate of Carnegie Mellon University with a B.S. in Civil Engineering, **George N. Aspiotes**, Vice President, and a graduate of the University of Pittsburgh, class of 1949 in Mechanical Engineering, and **George J. Aspiotes**, a 2002 graduate of John Carroll University with a B.A. degree in Communications and Marketing. Combined, we have more than 75 years of experience in the industrial painting field.

In addition to our company's officers Almega employs a highly skilled workforce, capable of compliance with individual customer requirements for safety.

Please feel free to contact us with any questions or to schedule a consultation.

# OUR MISSION

Over the years our company has completed projects of all sizes and types.

In the past we have performed work for various industries, including steel and aluminum plants, power plants, chemical plants, coal mines and steel bridges. During the performance of this work, various structures were painted, including tanks, conveyors, structural steel buildings, pipe bridges and gas pipelines.

Whether you put your trust in us for one job or a blanket maintenance contract, our goal is to provide you with the highest quality product, conducted in a safe, professional manner. We do not want to work with you just one time, we want to be the first painting company you think of for all your future projects.

Whatever your industry, environment or project, we have the experience and know-how to get the job done right. We at the Almega Company truly are a business with large project capabilities and family-business ideals.
